### REMARKS

Applicant appreciates the continued thorough examination of the present application and the withdrawal of all of the earlier rejections by the Examiner. Applicant also appreciates the detailed and thorough analysis of the claims relative to the newly cited reference U.S. Patent 6,731,606 to Lin et al. Finally, Applicant also appreciates the Examiner's indication that Claims 7, 8, 17, 18, 27 and 28 would be allowable if rewritten in independent form. In order to advance the present application to allowance, Claims 7, 8, 17, 18, 27 and 28 have been rewritten in independent form by incorporating therein the recitations of the independent and dependent claims from which they depend. Moreover, Claims 1-4, 6, 9-14, 16, 19-24, 26 and 29-30 have been canceled. New dependent Claims 31-33 correspond to original dependent Claims 5, 15 and 25, but depend upon Claims 8, 18 and 28, respectively.

The present Amendment is being filed to place the application in condition for allowance, and shall not be construed as an admission that the canceled claims were unpatentable over Lin et al., or that Lin et al. is prior art to the present application. In view of the above, Applicant respectfully requests allowance of the present application and passing the application to issue.

Respectfully submitted,
